

## Go From Classroom to Shipyard in Just Six Months

### Program Overview

The maritime industry needs well-trained, skilled workers today to fill the jobs of tomorrow! South's intensive six-month Maritime Shipyard Welding program, in partnership with Vigor Industrial, prepares students with the complete certifications needed to be employable by Vigor or other employers in the maritime trades.

You'll be prepared for shipyard-specific welding and fitting positions — with skills to begin a career path to higher-level training and higher-paying jobs. Classes are held at the Harbor Island Training Center, South's Classroom-In-A-Shipyard, located at 1731 13th Ave. SW, Seattle, WA 98134.
