

Sustainability Committee Meeting

1/25/18

Attendance: Christa Colouzis, Alison Pugh, Jennifer Furman (student), Liz Duarte

Waste/Recycling Mgmt Signage Project

Lucy/Christa completed:

1. Brockey Center
2. 1st Floor of Olympic Hall

Takes about 20 minutes to do each installation - more time than you would think.

Best done in pairs

Here's what you need when you put the signs up

Cart

Putty

Wipes - to clean before you put the signs/stickers on

Gloves

Paper towels

Put stickers on cans on every side

Standard - Christa has created a first iteration of the signage standard, but a recommendation for an update - # of recommended cans per room.

Volunteers/Needs

- Christa asked to speak to intermediate ESL class on 1/25 - requires service-learning hours. Matching them with the signage work. It's Christa's understanding that the teacher will allow some class time for them to do the work. Trying to set up a date now with that class.
- Christa will manage the class, but will need help from 1 or 2 more people and will send out time/date to the committee.

Future Questions

- What to do about recycling outside? - we only have a couple of places that have recycling bins, but we have a LOT of trash bins.

Earth Week, April 16-20 Ideas

- Trash Talking - Schedule on days we don't have events
- Earthship Lecture/Demo - Alison needs the best day/time
- Waste Audit - Thursday??

Rebecca Yedlin, Zahara, Jane - Christa to check with about class days/times

Tim Walsh - Alison to check with about class days/times

Flyer/Newsletter

Mid-February goal - conference/grant/earth week

Announcements

Liz - Art Gallery Committee has decided to an art show around sustainability in spring 2019!
Christa gave a report to College Council recently.
