Learn about South Seattle Community College's **Transportation, Logistics, and Supply Chain Management** program. The short-term, 19-credit program is designed for working adults who want to gain practical and relevant skills to enter the industry, and professionals seeking to enhance their knowledge. The program covers all aspects of the industry, including airport and seaport operations, supply chain management, domestic and international freight operations, and transportation and border security.

LOG 236 Introduction to Airport and Seaport Operations

4 Credits 44 clock hours

Structure, organization, and operation of a modern airport and seaport, including current issues and challenges are examined in this class as well as the critical interface with private sector providers of agency, terminal, stevedoring, tug, and line handling services.

Tuesdays, 6 to 9 pm – hybrid course with approximately half the classes offered online.

January 4 to March 15, 2011

LOG 237 Supply Chain Management

4 Credits 44 clock hours

The integration of the global supply chain with an emphasis on supply sources, distribution, production planning, information systems, customer service, inventory management, warehouse management, supply chain relationships, and challenges facing managers today will be examined.

Thursdays, 6 to 9 pm – hybrid course with approximately half the classes offered online.

January 6 to March 17, 2011
