CURRICULUM AND INSTRUCTION COMMITTEE BYLAWS

Mission

The Curriculum and Instruction Committee, hereafter known as CIC, is a standing campus committee which advises the Vice President for Instruction. This committee encourages and fosters curriculum development and faculty participation in program planning and coordination of the college curriculum and maintenance of academic standards.

Function

The CIC has primary responsibility for developing and reviewing the policies and guidelines related to program planning and coordination of curriculum, instruction and maintenance of academic standards. The committee will advise the Vice President for Instruction on instructional issues. The Vice President for Instruction will respond in writing to all formal CIC recommendations within a reasonable period of time. Matters which must be brought before the Curriculum and Instruction Committee include the following:

1. Review of current degree and/or certificate programs and courses as well as all 080 and 090-level English, math, and ESL courses and programs.

2. Revision of current degree and/or certificate programs and courses that generate FTE's, as well as all 080 and 090-level English, math, and ESL courses and programs.

3. Origination of degree and/or certificate programs and courses that generate FTE's, as well as all 080 and 090-level English, math, and ESL courses and programs.

4. Review of student learning outcomes.

5. Review of matters pertaining to academic standards, such as college grading policy, course withdrawal policies, program admission requirements, academic probation policy, and modes of delivery.

6. Assessment for both student outcomes and student placement, i.e., changes in test scores or prerequisites.

7. Any curriculum or academic standards related issues brought to the committee by the administration, staff, Faculty Senate, United Students Association, College Council, or college faculty.
Membership

The CIC consists of 14 voting members from full or part-time faculty (five from academic transfer and five from professional/technical, one from general studies, one librarian, one counselor, and one BAS faculty member.) The Vice President for Instruction, an administrator from academic programs and an administrator from professional/technical programs serve as non-voting, ex-officio members. Members are elected by their respective units for two-year terms. Alternates are elected in the same manner. Terms will be staggered with half of the faculty elected each year. Members may not serve more than two consecutive terms.

Alternates are encouraged to attend all meetings and keep current with committee business. Alternates vote only when they are representing another member of the CIC. In the event that an alternate member is needed to replace a standing committee member, the committee shall seek a substitute for the alternate immediately. The replacement must be a faculty member from the same educational area (Academic, Professional/Technical, Library, Counselor, or General Studies), as the previous alternate. The replacement shall be recruited from the previous election results (if available) and voted on at the next scheduled meeting of the full committee, following the appointment of the current alternate to the standing committee. In the event there is no one in the appropriate replacement pool from the elections, a member will be actively recruited from the area. A majority of two-thirds or greater shall be required to confirm the new alternate.

Duties/tasks of the Curriculum and Instruction Committee:

The CIC will establish three standing subcommittees: Program and Course Origination, Program and Course Revision, and Area and Program Review. Each of these subcommittees shall report regularly to the CIC. Joint Meetings of Subcommittees will be used to address program/course submissions that overlap subcommittee areas of responsibilities.

The CIC will respond to issues brought before the committee in a timely manner.

Short term programs/courses, of two quarters or less, are excluded from the Origination and Review process. These are approved by the VP for Instruction with the appropriate Dean.

The CIC may also establish task forces and subcommittees to address issues that require further study and consideration. Task forces and subcommittees may have members who are not members of the CIC.

CIC members should solicit relevant feedback from fellow faculty members in their departments or part of their constituencies on items discussed in CIC meetings. Any relevant information should be reported back to the CIC for consideration.
