Elective 10 Hours – Must present at least two (2) hours of training on the following topics. The minimum length of any topic is one-half hour:

10. Permit-Required Confined Spaces
11. Lockout/Tagout
12. Machine Guarding
13. Welding, Cutting & Brazing
14. Introduction to Industrial Hygiene
15. Fall Protection
16. Bloodborne Pathogens
17. Safety & Health programs
18. Ergonomics
19. Powered Industrial Vehicles (Forklifts)

Optional 7 hours – Teach other general industry hazards or policies and/or expand on the mandatory or elective topics. Minimum length of any topic is one-half hour.

20. Hearing Conservation Basics
21. Hazards of Asbestos in the Workplace
22. Formaldehyde Awareness
23. Recordkeeping & Reporting
24. Workplace Violence
25.

**COURSE CODING**

Funding Source: 1....................State
Institutional Intent: 22..................Vocational Supplemental

This Course is a requirement for the following program(s):
(No Programs Selected)

☑ My Course Proposal is a requirement for a program not on this list
Program Title/Description/Notes:
Industrial Manufacturing Advanced - STT Certificate

Will this course transfer to a 4-year university? No
Is this course designed for Limited English Proficiency? No
Is this course designed for Academic Disadvantaged? No
Does this course have a Workplace Training component? No

CIP Code: 15.0701
EPC Code: 768

Credits:
Will this course be offered as Variable Credit? No

List Course Contact Hours
- Lecture (11 Contact Hours : 1 Credit) 30
- Lab (22 Contact Hours : 1 Credit) 0
- Clinical Work (33 Contact Hours : 1 Credit) 0
- Other (55 Contact Hours : 1 Credit) 0

Total Contact Hours 30
Total Credits 3

COLLEGE SUPPLEMENTAL
Proposed Quarter of Implementation: Winter 2013

Class Capacity: 25

Modes of Delivery: (Check all that apply)
- ✔ Fully On Campus
- ☐ Fully Online
- ☐ Hybrid
- ☐ Other

Explanation:

Class Schedule Description:
Covers the basic skills and knowledge about protecting the health and safety of personnel, locating and applying OSHA safety and health standards to the workplace, and identifying the common violations of OSHA standards and proper abatement actions. It is intended as a supplement to an ongoing safety and health program within a training or workplace. Through illustrated lectures and small group activities participants will be able to propose appropriate abatement procedures for selected hazards.

Student Learning Outcomes:

Communication
Speak and write effectively for personal, academic, and career purposes
Describe the occupational safety and health ACT, 29CFR1926.

Critical Thinking and Problem-Solving
Think critically in evaluating information, solving problems, and making decisions
Identify the common causes of accidents and fatalities in hazardous areas

**Personal Responsibility**
Manage personal health and safety
Identify abatement techniques for hazards found within manufacturing

Be aware of civic and environmental issues
Recognize unsafe conditions and unsafe acts

**Program Outcomes:**

**At the end of the program the Students will:**

- Describe and utilize manufacturing techniques, tools and safety practices.
  
  (SLO 1, 2, 3, 4, 5, 7)

- Apply the concepts of diversified manufacturing, OSHA standards, Composites, Welding and LEAN concepts to promote quality and safe production and designs. (SLO 1, 2, 3, 4, 7)

- Employ the appropriate actions regarding workplace culture, safety and industry standards; (SLO 3, 6)

- Evaluate one's own capabilities and limitations, identify individual needs of continued growth is able to seek consultation from superiors. (SLO 3, 6)

- Communicate effectively and appropriately in the workplace. (SLO 1, 3, 4, 6)

- Practice within the standards established by the profession, and identify the parameters of accountability. (SLO 2, 4, 5, 6, 7)

**Course Outcomes/Objectives:**

- Understand and State the purpose of the OSHA Act and list the functions of OSHA
- List the OSHA inspection priorities and describe the inspection process
- Describe the rights and responsibilities of employers and employees under the OSHA Act
- The basic requirements for proper aisle and passageway maintenance
- Guidelines for identification and protection of floor openings
- To understand the importance of effective Egress fire protection program
- To know the safe means of Egress to provide fire protection in emergencies from new or old buildings or structures
- Outline the general requirements for general safety standards
- Establish the guidelines and requirements for special purpose equipment

**Explain the student demand for the course and potential enrollment:**

This course is part of the required curriculum for the Industrial Manufacturing Advanced Short Term Training Certificate.
Explain why this course is being created:

Course is being created as part of the required curriculum for the Industrial Advanced Short-Term Training Certificate at the Georgetown Campus.

What challenges, if any, do you foresee in offering this course:

No challenges seen at this time.
This is to certify that the above criteria have all been met and all statements are accurate to the best of my knowledge.
