☑ Fully On Campus
Class Schedule Description:
Identify and properly use ornamental shrubs, trees, vines, and ground covers adapted to and utilized in the Pacific Northwest landscapes. Recommended for success; LHO 150 suggested.

Student Learning Outcomes:

**Communication**
Read and listen actively to learn and communicate

- Listen actively to learn and communicate. Speak and write effectively about landscape plants.

**Human Relations**
Use social interactive skills to work in groups effectively

- Use skills to work in groups to achieve common goals.

**Critical Thinking and Problem-Solving**
Think critically in evaluating information, solving problems, and making decisions

- Think critically in evaluating information to identify plants.

**Personal Responsibility**
Attend class regularly, complete assignments on time and effectively participate in classroom and online discussions, group work and other class-related projects and activities

- Be motivated and able to continue learning and adapt to change. Value one's own skills and abilities.
- Take pride in one's work.

**Information Literacy**
Independently access, evaluate and select information from a variety of appropriate sources

- Access horticulture research materials for continuing education.

Course Outcomes / Objectives:

1. Identify approximately 140 plants commonly used in or adapted to Pacific Northwest landscapes.
2. Describe the growth habits, cultural requirements, major pest and cultural problems, and appropriate landscape uses of the plant materials studied.
3. Recommend appropriate plants (from those covered in the course) when given specific landscape situations with varying cultural, aesthetic, and physical requirements.
4. Demonstrate an understanding of the factors involved in suitable plant selection for the sustainability and economic viability of a landscape.
5. Recall the common and scientific names of the plants studied.

Explain the student demand for the course and potential enrollment:

Class is currently offered once a year, not a new course.

Explain why this course is being revised:

This is not a new course, it is updating the outline of an existing course.

What challenges, if any, do you foresee in offering this course:

None.
This is to certify that the above criteria have all been met and all statements are accurate to the best of my knowledge.
