Course Outcomes / Objectives:
1. As advised by the Landscape Horticulture Technical Advisory Committee, demonstrate those qualities that make a good employee and supervisor.
2. Develop appropriate landscape construction skills and techniques necessary to produce quality and acceptable outcomes.
3. Given a set of site conditions, discuss alternative solutions or processes for the landscape construction project and assess likely outcomes for each solution or process.
4. Describe and identify the proper steps and procedures taken in various landscape construction processes.
5. Through class and project activities display comprehension of ethical, legal, and quality work and safety standards.

Explain the student demand for the course and potential enrollment:
Class is currently offered once a year, not a new course.

Explain why this course is being revised:
This is not a new course, it is updating the outline of an existing course.

What challenges, if any, do you foresee in offering this course:
This is to certify that the above criteria have all been met and all statements are accurate to the best of my knowledge.
