SBST432 - Fiscal Management for Facility Managers

Document Type: District Master Course Outline
Proposal Type: New Course
Requester(s): David Krull
College: South
Origination Approved: 02/27/2014 - 1:55 PM

BASIC INFORMATION
- Requester(s): David Krull
- College: South Seattle Community College
- Division/Dept: Professional Technical
- Dean: Holly Moore

COURSE INFORMATION
- Proposed Course Number:
  Prefix: SBST  Number: 432
  [ ] Request a new Prefix
  [ ] This will be a common course

- Full Title: Fiscal Management for Facility Managers
- Abbreviated Title: Fiscal Management

- Catalog Course Description:
  Provides an overview of fiscal management for facility managers.

- Course Length: 11 Weeks  [ ] Request an Exception

- Course Prerequisite(s):
  Student must be enrolled in the BAS Sustainable Building Science Technology program or have instructor approval and have taken Facilities Management.

- Topical Outline:
  1. Overview of fiscal management (2)
  2. Budgets—function, creation, review (3)
  3. Budget management—indirect, benefits, personnel, training, etc. (3)
  4. Collaboration and communication with financial officer (1)
  5. MS Excel—how it can assist fiscal management and how to use it (3)
  6. Accounting software—understanding it and assisting financial officer (2)
  7. Developing and using a business plan for energy management (3)
  8. Contracting and sub contracting (4)
  9. Cost analysis for equipment—life cycle, return on investment (3)
  10. Developing solicitation with specifications, analyzing and selecting bids (4)
  11. Basic statistics and practical use in energy and fiscal management (3)
  12. Financial tracking and reporting (2)
COURSE CODING

Funding Source: 1..................State
Institutional Intent: 21..................Vocational Preparatory

This Course is a requirement for the following program(s):
(No Programs Selected)

☑ My Course Proposal is a requirement for a program not on this list
Program Title/Description/Notes:
BAS Sustainable Building Science Technology program

Will this course transfer to a 4-year university?  No

Is this course designed for Limited English Proficiency?  No
Is this course designed for Academic Disadvantaged?  No
Does this course have a Workplace Training component?  Yes

CIP Code: 03.0198
EPC Code: 177

☑ Request Specific CIP Code
☑ Request Specific EPC Code

Credits:
Will this course be offered as Variable Credit?  No

List Course Contact Hours
- Lecture (11 Contact Hours : 1 Credit) 33
- Lab (22 Contact Hours : 1 Credit) 0
- Clinical Work (33 Contact Hours : 1 Credit) 0
- Other (55 Contact Hours : 1 Credit) 0

Total Contact Hours 33
Total Credits 3

COLLEGE SUPPLEMENTAL

Proposed Quarter of Implementation:  Fall 2014

Class Capacity: 25

☑ Request Provisional Exception

Modes of Delivery: (Check all that apply)
☑ Fully On Campus
☑ Fully Online
☑ Hybrid
☑ Other Explanation:
**Class Schedule Description:**
Provides an overview of fiscal management for facility managers.

**Student Learning Outcomes:**

**Communication**
Read and listen actively to learn and communicate

Speak and write effectively for academic, and career purposes

**Computation**
Use arithmetic and other basic mathematical operations as required by program of study

Apply quantitative skills for academic, and career purposes

**Human Relations**
Use social interactive skills to work in groups effectively

Have knowledge of the diverse cultures represented in our multicultural society

**Critical Thinking and Problem-Solving**
Think critically in evaluating information, solving problems, and making decisions

**Technology**
Select and use appropriate technological tools for academic, and career tasks

**Personal Responsibility**
Uphold the highest standard of academic honesty and integrity

Respect the rights of others in the classroom, online and in all other school activities

Attend class regularly, complete assignments on time and effectively participate in classroom and online discussions, group work and other class-related projects and activities

Abide by appropriate safety rules in laboratories, shops and classroom

**Information Literacy**
 Independently access, evaluate and select information from a variety of appropriate sources

Have knowledge about legal and ethical issues related to the use of information

Use information effectively and ethically for a specific purpose
Program Outcomes:

1. Systems – understand operations and systems unique to sustainable buildings.
2. Analysis – analyze, define and validate systems.
4. Communications – utilize effective communication techniques to facilitate all aspects of sustainable building management.
5. Leadership – develop and lead a team of various personalities and skills.
6. Team skills – work in a team and know how to collaborate, build functional work groups and take responsibility for outcomes.
7. Critical thinking – identify, analyze and solve problems.
11. Building science – demonstrate working knowledge of building science and relationships across disciplines.
13. Computer skills – demonstrate ability to use commonly available instruments and interpret findings in audits and reports.
14. Social value, ethics and need – create and maintain a professional environment based on values and ethics.
15. Data management – use computer programs used in building industries and quality assurance to make fact based decisions.

Course Outcomes / Objectives:

At the end of the course the student will:

1. Understand the essentials of fiscal management.
2. Be capable of basic budget function and management.
3. Be aware of how to work with the organization’s fiscal officer.
4. Understand MS Excel and how to use it for fiscal management.
5. Be aware of the organization’s accounting software and processes.
6. Understand how a business plan can help achieve goals.
7. Know the basics of contracting and subcontracting.
8. Know the basics of costing and purchasing.
9. Understand basic statistics and their relevance to fiscal management.
10. Know how to track finances and create financial reports.

Explain the student demand for the course and potential enrollment:

Course required for BAS Sustainable Building Science Technology program. All students will be enrolling in the course as a cohort. Course to be offered one time per academic year.

Explain why this course is being created:

- Employer demand
- Student demand
- Options for place-bound students

The SBST BAS degree program will address a critical gap in the current education system that has developed as this industry has evolved over the past five to 10 years. Traditional engineering, construction and architectural studies focus on the design of new buildings, rather than the complex and sophisticated
systems that enable newly designed and retrofitted buildings to function. Individuals previously trained as facility managers do not have the level of expertise or systems knowledge to support these highly technical operations. Therefore, businesses are hiring engineers and spending months and even years retraining them to work in this capacity. Frequently these individuals do not want this type of work and leave when other more suitable opportunities present themselves. Individuals who choose to pursue a degree in the field of Sustainable Building Science Technology will not only have the specialized skills they need; they will be more stable employees.
This is to certify that the above criteria have all been met and all statements are accurate to the best of my knowledge.
