Learn about South Seattle Community College's new **Transportation, Logistics, and Supply Chain Management** program. The short-term, 19-credit program is designed for working adults who want to gain practical and relevant skills to enter the industry, and professionals seeking to enhance their knowledge. The program covers all aspects of the industry, including airport and seaport operations, supply chain management, domestic and international freight operations, and transportation and border security.

Two courses are being offered spring quarter (April 5 – June 18):

LOG 238 Domestic & International Freight Operations

Focuses on critical issues facing transportation companies, including freight operations; air and surface modes; inbound and outbound logistics; private and public policies; and customer, employee, citizen, and shareholder expectations.

4 credits Thursdays 6 – 9 pm

LOG 239 Transportation and Border Security

Provides an in-depth view of modern border and transportation security, including protection of seaports, ships, aircraft, trains, trucks, pipelines, etc. Covers specific facets of transportation security, physical and procedural controls, and government regulations.

4 credits Tuesdays 6 – 9 pm
