Career Planning Guide Effective April 2006 for

Mechanical/Civil/Aeronautical/
Industrial/ Materials Science/ pre-Engineering (Other Engineering) Pathway

Length of Program: 107 credits  Goal: Associate of Science (AS) Degree

Official Designation: AS-T Other Engineer/MRP  Exit Code Q and CIP of 14.1901

South Seattle Community College
6000 16th Ave SW
Seattle, Washington 98106-1499

PROGRAM DESCRIPTION
Mechanical engineers are involved in the design, test, development, and manufacture of mechanical devices and systems. Civil and environmental engineers are involved in the design, construction, and operation of water facilities, wastewater disposal plants, hydraulic structures, electric energy generation, transportation systems such as highways, railroads and airports, buildings and bridges of all kinds, community planning, and solid and hazardous waste disposal. Aerospace engineers are involved in the design, test, development, and manufacture of commercial and military aircraft, spacecraft, missiles, and rockets. This AS degree is also appropriate for Industrial Engineering, Materials Engineering and other engineering majors. The Mechanical/Civil/Aeronautical/Industrial/ Materials Science/pre-Engineering Pathway Associate of Science (AS) degree program prepares students for transfer to Engineering programs at four-year colleges and universities and will give students basic skills needed by all engineers. Students study basic mathematical and scientific principles with an emphasis on problem solving and critical thinking. The curriculum includes a design component consistent with the Accreditation Board for Engineering and Technology (ABET) accreditation standards. Credits earned with the AS degree at South Seattle Community College can be applied toward the first two years of a four-year bachelor’s degree in engineering.

PROGRAM OUTCOMES
Students who successfully complete this program will show:
- An ability to apply knowledge of mathematics and scientific principles to engineering problems.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to think critically in evaluating information, solving problems and making decisions.
- An ability to function on diverse, multi-disciplinary teams.
- An ability to access and evaluate information from a variety of sources including the Internet.
- An understanding of professional and ethical responsibility.
- An ability to communicate effectively with written, oral, and visual means.
- The broad education necessary to understand the impact of engineering solutions in a global and societal context.
- A recognition of the need for and an ability to engage in life-long learning.
- An ability to use modern engineering techniques, skills, and technology including computing and programming tools necessary for engineering practice.

CAREER OPPORTUNITIES
The employment outlook for Engineers is very good. Graduates can be employed in private industry as well as various governmental departments, consulting services, and technical sales. Nationwide, the average starting salary for graduates with a Bachelor’s degree in Engineering in 2008 varies from $50,940 to $63,616 depending on the field studied. Updated 10/6/08
Associate of Science
Mechanical/Civil/Aeronautical/
Industrial/ Materials Science/ pre-Engineering Pathway

CURRICULUM
107 credits are required for the AS degree. All classes are 5 credits unless otherwise listed.

BASIC REQUIREMENTS (20 credits):
- ENGL& 101 – Composition
- MATH& 151 – Calculus I
- MATH& 152 – Calculus II
- MATH& 153 – Calculus III

DISTRIBUTION REQUIREMENTS (15 credits):
A course in Economics is recommended.
Visual, Literary and Performing Arts (5 - 10 credits)
- Language and Speech
- Literature/History of Ideas
- Music, Art and Drama

Individuals, Cultures and Societies (5 - 10 credits)
- Individuals and Societies
- United States Culture
- Global Studies

MAJOR AREA OF STUDY (62 credits):
- CHEM& 161† (6 credits), CHE 162 (6 cr)
- CSC 142‡ (or ENGR 142‡)
- ENGR 110 (1 cr), 116 (4 cr)
- ENGR& 214, ENGR& 215, ENGR& 225
- MATH 220, 238
- PHYS& 221, 222, & 223

ELECTIVES (10 credits):
Courses may not be used to satisfy other requirements. Choose two from the list below.
Selection should be made based on advisor recommendation, given the branch of engineering that the student plans to pursue.
- ENGR& 111 Engineering Graphics (4 cr)
- ENGR& 204 Fundamentals of Electrical Engineering
- ENGR& 230 Technical Writing (3 cr)
- ENGR& 224 Thermodynamics
- ENGR 170 + ENGR 171 Material Science + lab
- MATH 224 Vector Calculus

Footnotes:
† CHEM 139 is a prerequisite for CHEM& 161
‡ CSC 110 is a prerequisite for CSC/ENGR 142

SAMPLE COURSE PLAN
By starting in the Fall and taking a full-time load, students may complete the curriculum in six quarters, though many students find they need to take summer classes. Certain higher-level classes are only offered once a year, so be sure to consult with advisors here at SSCC and at the 4-year institution you will attend to plan your schedule.

FRESHMAN YEAR:
First quarter
- MATH& 151 Calculus I
- ENGL& 101 Composition
- ENGR 116 Engineering Design and Creativity
- ENGR 110 Engineering Orientation

Second quarter
- MATH& 152 Calculus II
- CSC 142 Computer Programming for Engineers
- CHEM& 161 Chemistry I

Third quarter
- CHEM& 162 Chemistry II
- MATH 153 Calculus III
- PHYS& 221 Engineering Physics I

SOPHOMORE YEAR:
First quarter
- Distribution Requirement (5 credits)
- ENGR& 230 Technical Writing
- MATH 238 Differential Equations
- PHYS& 222 Engineering Physics II

Second quarter
- PHYS& 223 Engineering Physics III
- ENGR& 214 Statics
- MATH 220 Linear Algebra
- Distribution Requirement (5 cr)

Third quarter
- Distribution Requirement (5 cr)
- MATH 224 Vector Calculus
- ENGR& 225 Strength of Materials
- ENGR& 215 Dynamics
