ASTR 298 Special Topics  
February 2008

#### STUDENT LEARNING OUTCOMES ADDRESSED:

Due to the nature of this course, i.e., a course designed for specific requirements, the following are important components;

1. Communication - Speak and write effectively for personal, academic and career purposes.
2. Critical Thinking and Problem Solving - Think critically in evaluating information, solving problems and making decisions.
3. Technology - Select and use appropriate technological tools for personal, academic and career tasks.
4. Personal Responsibility - Be motivated and able to continue learning and adapt to change.
5. Information Literacy - Access and evaluate information from a variety of sources and contexts, including technology. Use information to achieve personal, academic, and career goals, as well as to participate in a democratic society.

#### GENERAL COURSE OBJECTIVES:

To be determined by contracting parties with SSCC.

#### TOPICAL OUTLINE:

To be determined by agreement between requesting party and SSCC.
