Pathway: Environmental Studies Area of Study: Science, Technology, Engineering, and Math

Seattle Colleges is committed to accessibility. If support is needed in accessing the information within this document please contact access.south@seattlecolleges.edu.

Overview

This pathway is designed to meet Associate of Arts (AA) degree requirements with a concentration in Environmental Studies. This pre-major pathway prepares you to transfer at the junior level to a four-year college to earn a bachelor's degree in environmental studies or a related field. Whereas the environmental science pathway is designed for students who want to focus on scientific careers in fields such as pollution abatement, water resources, ecosystem protection, environmental restoration, and environmental management, the environmental studies pathway is more broad in focus. 05/18/2024

Pathway: Environmental Studies Area of Study: Science, Technology, Engineering, and Math

Get Started

Step 1: Apply and register at South Seattle College anytime (the application is always free). Once you become a student, register for classes using the online class schedule and go to the academic calendar for registration dates and tuition deadlines.

Step 2: See an advisor to create a personalized educational plan by the end of your second quarter. Your plan will include prerequisites, graduation requirements, and transfer preparation if you plan to transfer to another college or university to earn a bachelor's degree.

A sample schedule is below. The schedule will help you explore courses. The guide assumes a fall quarter start, but you can begin in any quarter.

Sample Schedule

This is an example of a quarterly schedule:

Quarter 1

- ENVS150 Environmntl Issues/Probl (5 units)
